Date : 28/8/2023

## UNDERTAKING

This is to undertake the following points -

1. The category field for affiliation was mistakenly filled as fresh application, however the school is running in the state board of Madhya Pradesh till class 8<sup>th</sup> as was stated in the inspection and review. Therefore, it is requested that the category of application should be changed from fresh application to switch over from other board. And that school would not run in the state board after affiliation from the board.
2. The construction material of the administrative block will be cleaned within 1 month time. However, the entries are completely separate from the academic block of student and it is safe.
3. The deficiencies of laboratories, library, boundary wall and sports materials have been met out. Any other deficiency in the same fields will be met out by the school as per the SOP within 3 months.
4. The construction of Ramp has been done as permanent structure till the top floor keeping in view the best slope as stated by the SOP. Apart from the staircase on which the ramp is constructed there are two other staircases for easy moving of students across the building. As discussed with the IC a separate lift would also be installed in the building for the CWSN students as per the SOP of CBSE. We will install lift within 3 months. Apart from this, any other minor deficiencies or suggestions will be taken care by the school at the earliest.

It is humbly requested that the school has applied for affiliation till the senior secondary level and has done all the preparations keeping in view of that. The tribal region requires a good CBSE school till senior secondary level with good infrastructure, smart classes and minimal fees structure which is easy for the parents to pay. The school is run by the society Lakshmi Gayatri Shiksha Prachar Samiti which aims and works for the same noble cause.

Request for cooperation with aspirations

Thanks and regards
